

AJRETAJ

Installation, maintenance and operation
of modern factories

Administrative employee

Management staff with high experience in managing factories, accounting, experts in marketing and public relations, in addition to advertising specialists.

We present to you a selection of workers and technicians in providing assistance in increasing production by working either in construction or working in factories. This group that we offer to work in your investment is the main reason for the success of your projects, as they are trained and specialized in the work presented and studied by the staff of Alreetaj Company.

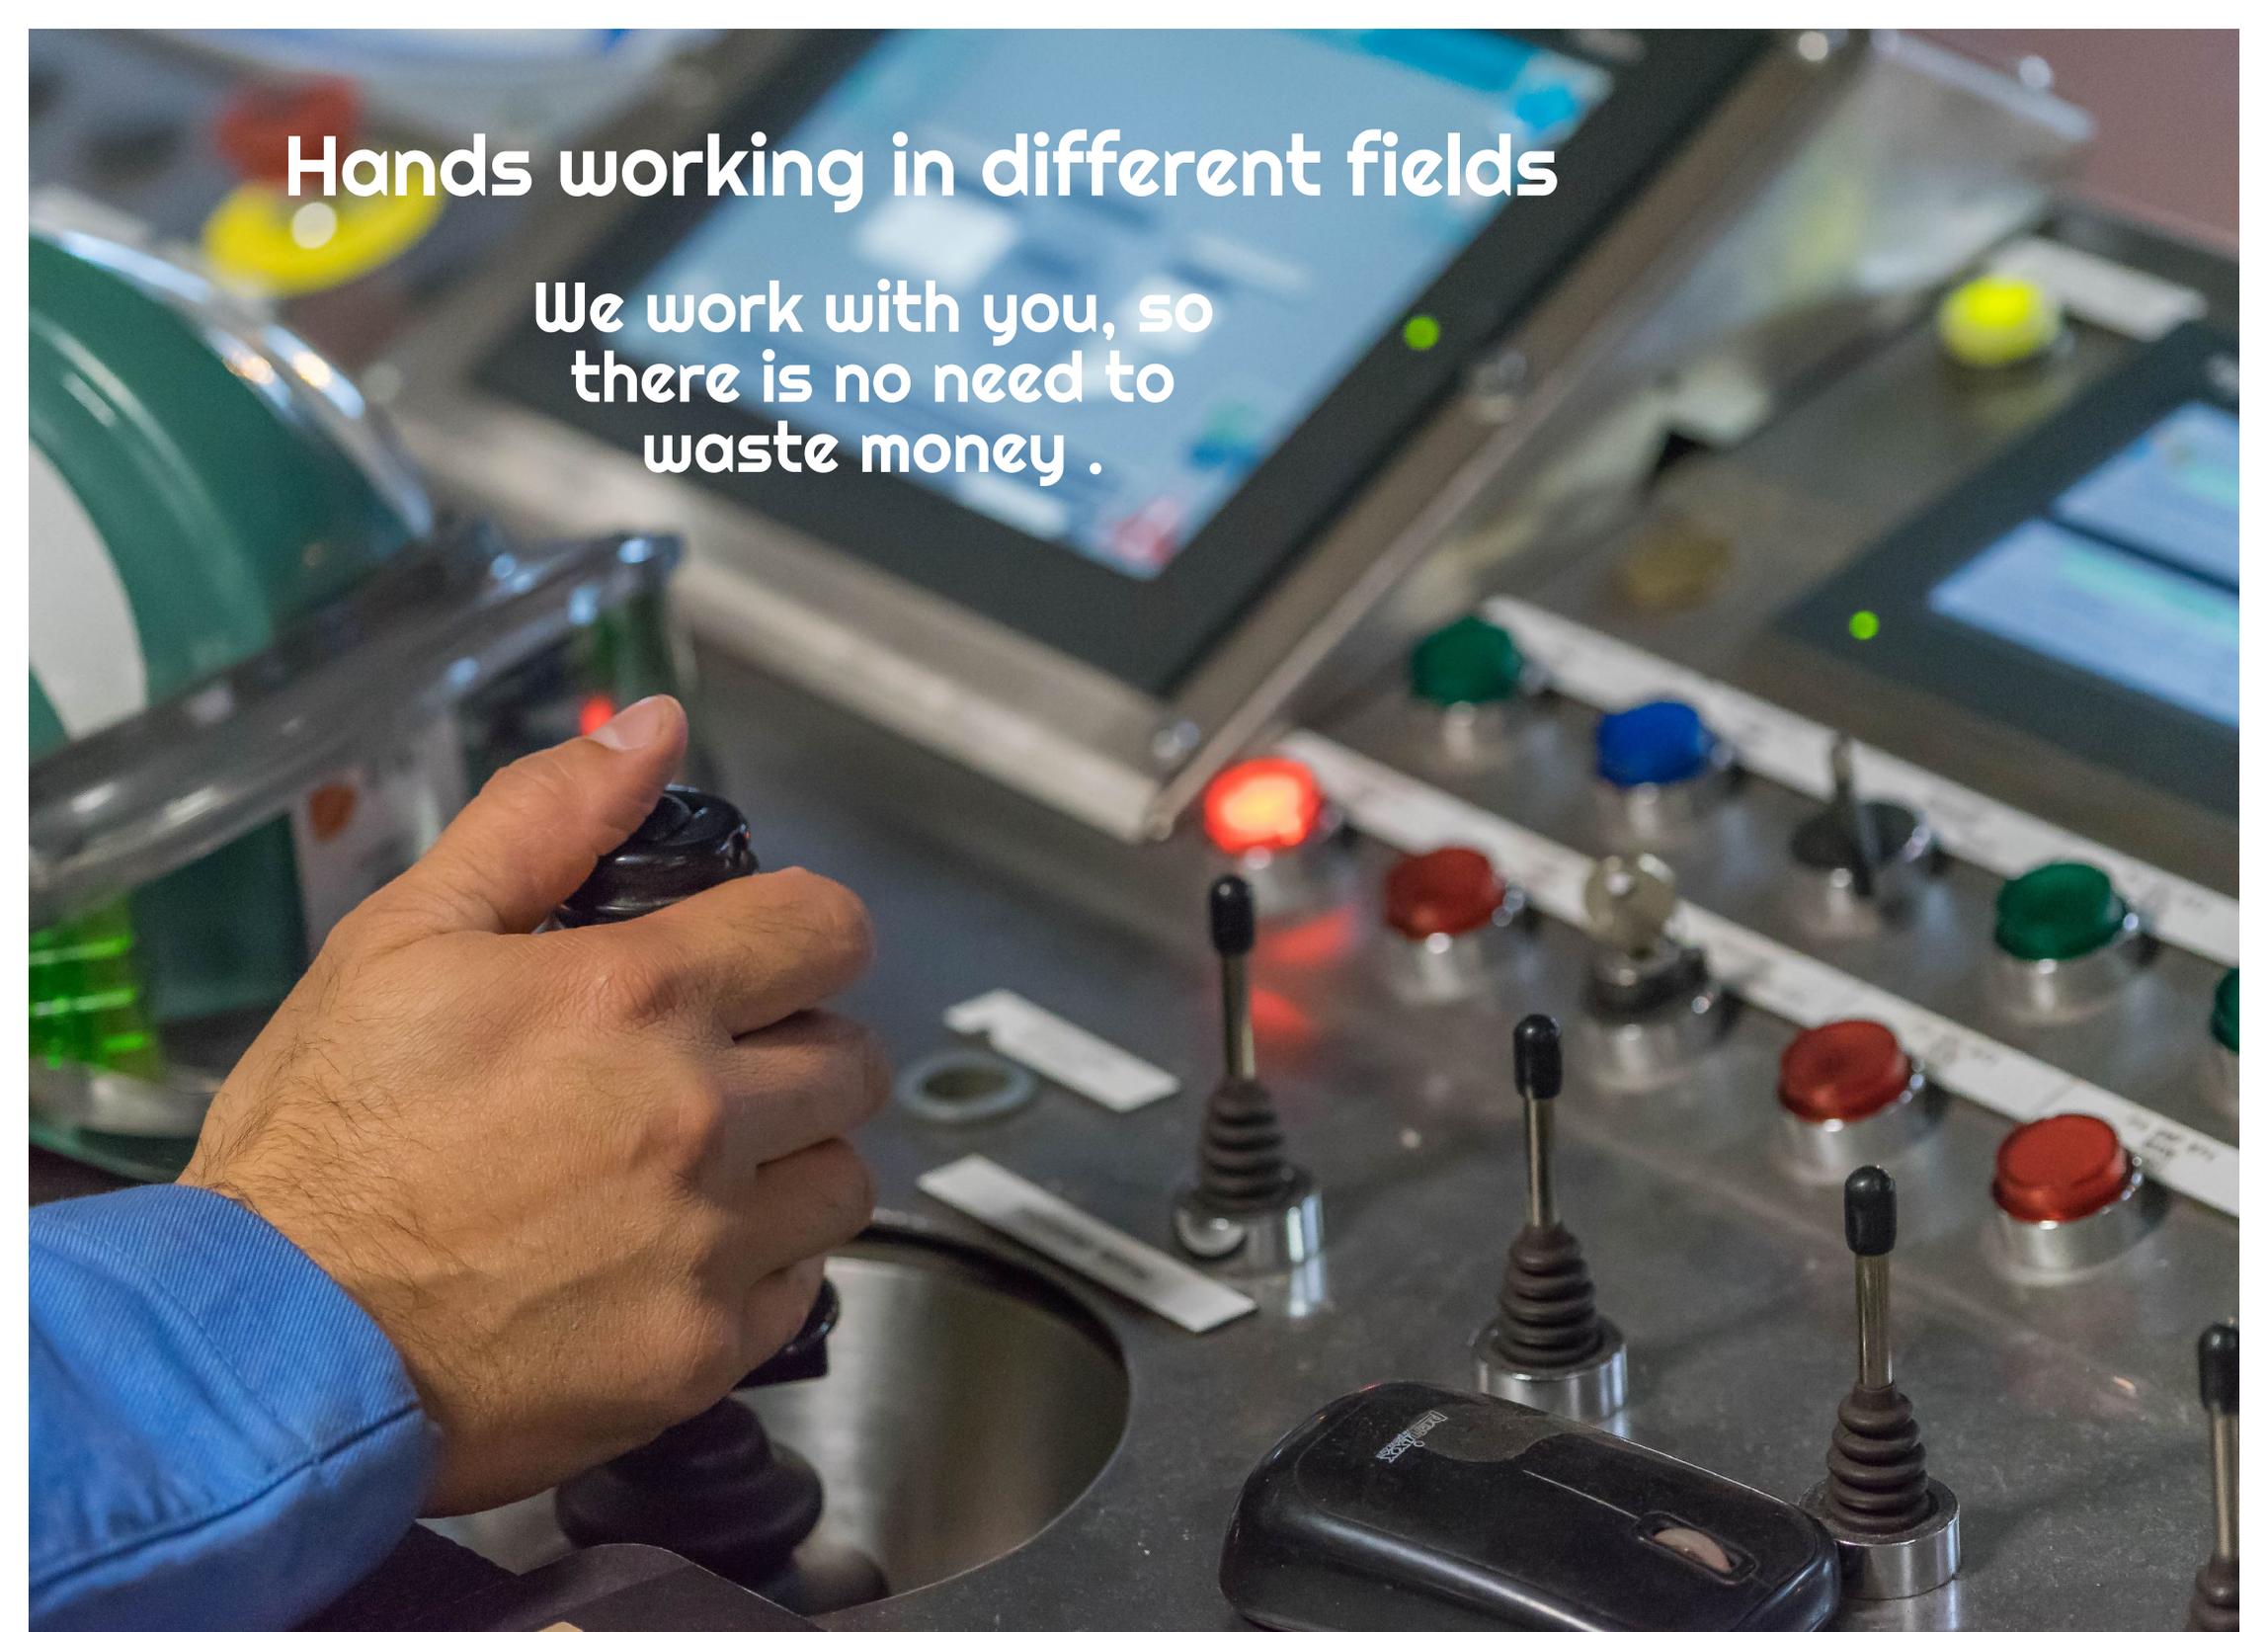

The appointment of work specialists is based on a specialized team studying giant projects .
